NILE TECHNOLOGIES, INDIA

November 2020 - May 2021

Software Developer

- Implemented AB Testing using google analytics to provide a way to update static texts, colour schemes etc., to analyse what provides a better user experience.
- Worked on bridging react-native and swift codebases to solve the problem of updating

the codebase from native to hybrid periodically.

- Ensuring that the app follows Apple's Human Interface Guidelines.

GYMHOP TECHNOLOGIES, INDIA

February 2019 - December 2020

Software Developer

- Implemented JWPlayer to enable video streaming instead of building the system from scratch, reducing the development time by 40 days.
- Responsible for providing requirements for support to the backend teams.
- Managed the approval process for the app store.

WEBMAAZIX SOLUTIONS, INDIA

August 2018 - January 2019

Senior iOS Developer

- Resolved battery drainage issues by improving the logic for the frequency of location updates sent to the server.
- Responsible for overall mobile team project deliveries.
- Reviewed client requirements, wireframes and designs for technical feasibility.

ETELLIGENS TECHNOLOGIES, INDIA

August 2017 - May 2018

Senior Software Developer

- Responsible for providing learning support to mobile team interns that included iOS and android interns.
- Collaborated with the scrum team to translate the client requirements into user stories.

IGNIVA INFOTECH, INDIA

September 2015 - April 2017

iOS Developer

- Developed a feature by combining the pedometer and location updates to track the number of steps a person takes while walking/running.
- Responsible for updating the projects from objective to swift.
- Updated the design pattern of multiple apps from MVC to MVVM.

Education

PG Certificate – Mobile Application Development

Cambrian College, Sudbury, Canada, 2022.

Graduation – Bachelors in Technology (Computer Science Engineering)

IET Bhaddal, India, 2015
